The Dales Collection

COMPOSITE DOORS

The ideal way to make an entrance to your home

Welcome
to The Dales Collection

The Dales Collection of composite doors brings individual style and high-performance materials direct to your doorstep. Behind the classic appearance, you'll find advanced engineering, design and technology giving you a low maintenance, secure and well insulated entrance. Even the traditional style keyhole conceals the latest multi-point-lock which gives you unbeatable, high-tech security.

With ten styles in seven colours and with twelve glazing options, you can create a look that is perfect for your home. Contemporary chic offered by the Milldale style, Chatsworth with its traditional Edwardian look, or the quaint cottage-style of Middleton, there is a style to suit you and your home.

Classic appearance
with everlasting strength

We know that your door needs to stay at its very best in the thick of everyday action. That's why our doors are designed to stand up to the hardest knocks and treatment. A tough Glass Reinforced Plastic (GRP) outer skin with a rigid foam infill panel means the door is virtually draught and soundproof, providing you with greater levels of comfort and energy efficiency – with heat insulation up to six times that of a traditional timber door.

The Dales Collection has a realistic woodgrain finish available in a variety of distinctive colours alongside a range of furniture options for a smart, quality apperance.

The latest multi-point-locking system also makes it much harder for intruders to break-in, helping keep your home secure. In fact our doors have been approved by the Association of Chief Police Officers through the Secured by Design scheme.

It's not often that something so high-quality can also be low-maintenance. Yet, these stunning doors only require occasional cleaning to retain their eye-catching good looks.

With The Dales Collection, you can be sure that, no matter what your door has to go through – its performance will never fade.

Long lasting
low maintenance performance

The Dales Collection combines strength, security and style in a door that requires virtually no maintenance. The key to bringing all these attributes together is the composite construction of the door. By combining different materials, our doors will help keep your home secure and warm.

A robust Glass Reinforced Plastic (GRP) outer skin featuring a realistic woodgrain finish provides the tough face that your door presents to the world. It makes your door far less prone to scratching and denting than steel-faced doors, and will never need painting or varnishing unlike a wooden alternative. So whether you're pushing in prams, squeezing through sofas or rushing in from work – your door will resist the wear and tear of everyday life. GRP is also totally weatherproof, so come rain, snow or hailstone – your door will still offer outstanding, all-year performance.

Step inside your home and you'll find that the use of a rigid foam insulation core coupled with the GRP outer layer means a Dales Collection door will retain up to six times the heat of a timber door – keeping you warm all year round and helping keep your energy bills down.

The composite door construction and custom designed Eurocell frame means your door-set will remain weatherproof, even in the harshest weather conditions. This makes it virtually maintenance free and enables us to provide a comprehensive 10-year guarantee against swelling, de-lamination and colour-loss.

Individual style
with maximum security

Individual style & maximum security

The door to your home has an important job to do, protecting your nearest and dearest from intruders and damage. It's one thing to look good on the outside, but when push comes to a rather hard shove, can your door withstand the pressure?

With The Dales Collection, you needn't worry as our doors feature the latest multi-point-locking technology which gives your home maximum security. Whether you choose an 'anti-bump' cylinder lock or the latest 5-lever mortice lock with traditional keyhole and built-in draft excluder, your door will be far more secure than commonplace doors today.

If an attempt at entry should occur, aluminium edging to both sides of the door helps protect against damage. Plus, for even greater peace of mind, all our doors and locks have been through rigorous tests and simulated break-in attempts. This has earned them the approval of the Association of Chief Police Officers' Secured by Design scheme and the police preferred specification, PAS23 & PAS24. So you can be fully confident your door is as safe as houses!

Secured by Design

Official Police Security Initiative

Patented 5-lever locking system

Traditional keyhole

£1000 GUARANTEE if the lock fails during a break-in!

We're so confident in the quality and strength of our new multi-point-lock that we promise you **£1000 in the event of a break-in***, where the lock is the point of entry. How's that for peace-of-mind?

Something to turn your head?

We offer a choice of polished chrome, polished gold or white handles, letterboxes and door knockers. Doors can also be fitted with a spyhole, integrated within the door knocker if required - giving you the peace of mind of seeing who your visitors are before opening your door.

Our high quality handles are available as conventional lever handles, where you need to turn the key to lock the door, or as pad handles where the door will lock automatically on closure. All covered by our comprehensive 10-year guarantee.

House numbers are also available in either polished chrome or gold so visitors and the postman can find the right house!

Quality resides
in every single feature of your composite door

Designed as a complete solution that includes the door, frame and where applicable the sidelight, you can be confident of inherent quality throughout. A dedicated transom bar means the door frame can be made in one piece, making your door strong and secure with impeccable looks.

The exceptional workmanship that goes into The Dales Collection means there will be no post-installation problems due to the manufacture of the door, leaving you free to enjoy your door and your home.

Hook lock detail

Triple weather seal frame

The Dales Collection is designed and built to meet and exceed all Building Regulations requirements and carries full Secured by Design* and PAS23/24 accreditation. We are so confident of the build quality of our doors that we offer a full 10-year guarantee and our reassurance that you won't find anything stronger or more secure.

Triple sealed against the elements

The intelligent design of our composite doors with their flush fitting frame feature a high-tech triple weather seal keeping the elements safely outside and keeping you free from draughts.

Low-level threshold for easier access

The Dales Collection has been designed with a low threshold option, available in silver or gold, to complement the rest of your door furniture. This removes the raised threshold along the bottom of the door, giving you easier and unimpeded access to your home. We can also offer thresholds to meet Part M of the Building Regulations which are perfect for people with pushchairs and for wheelchair users.

* Mortice locks only

Discover
a world of choice

Create your own personal style

A choice of ten different styles enables you to design a door that is personal to your home. From classic to contemporary, intriguing to bold, a wide-range of options means you have the freedom to choose a style that is right for you. The right door transforms a house and provides the finishing touch to your home. Use your door to reflect the style that you want your home to convey and every time you come home you can feel pride that you chose how your door looks!

Give your home a splash of colour

From vibrant red to tranquil green, the colour of your door makes a statement about you and your home. The Dales Collection gives you a choice of seven distinctive exterior and interior colours for a classical, personal finish.

Frost White

Heritage Green

Gothic Black

Derwent Blue

Berry Red

Golden Oak

Rosewood

All our doors are white internally as standard but are available with colour both sides as an option. Dales Collection doors are also available with colour matched weather bars in place of the standard chrome or gold fittings at the bottom of the door.*

* Excludes Golden Oak and Rosewood finishes.

Through the looking glass

your choice of stunning glass designs

Murano Red | Murano Blue | Murano Green | Murano Black

Beauty that shines through

Choose from bold half-glazing, through to contemporary arches and traditional glazing infused with decorative picture art. From designs in the style of Charles Rennie Mackintosh to abstract geometric shapes and colourful glass options - there is a design for you. Our wide choice of options enables you to add the finishing touch to your door and complement your home.

Our glass designs are made using the highest quality materials, so glass colours will remain bright and vibrant for years and years to come.

Our glass designs are manufactured using traditional techniques and finished by hand, ensuring the best possible finish.

Creating privacy

Many of our glass designs can be specified with two different backing glasses as well as clear, offering varying levels of obscurity. Choosing the right backing glass can help keep your home your own.
