Whatever the style of your property, REHAU offer the right products to suit your home.

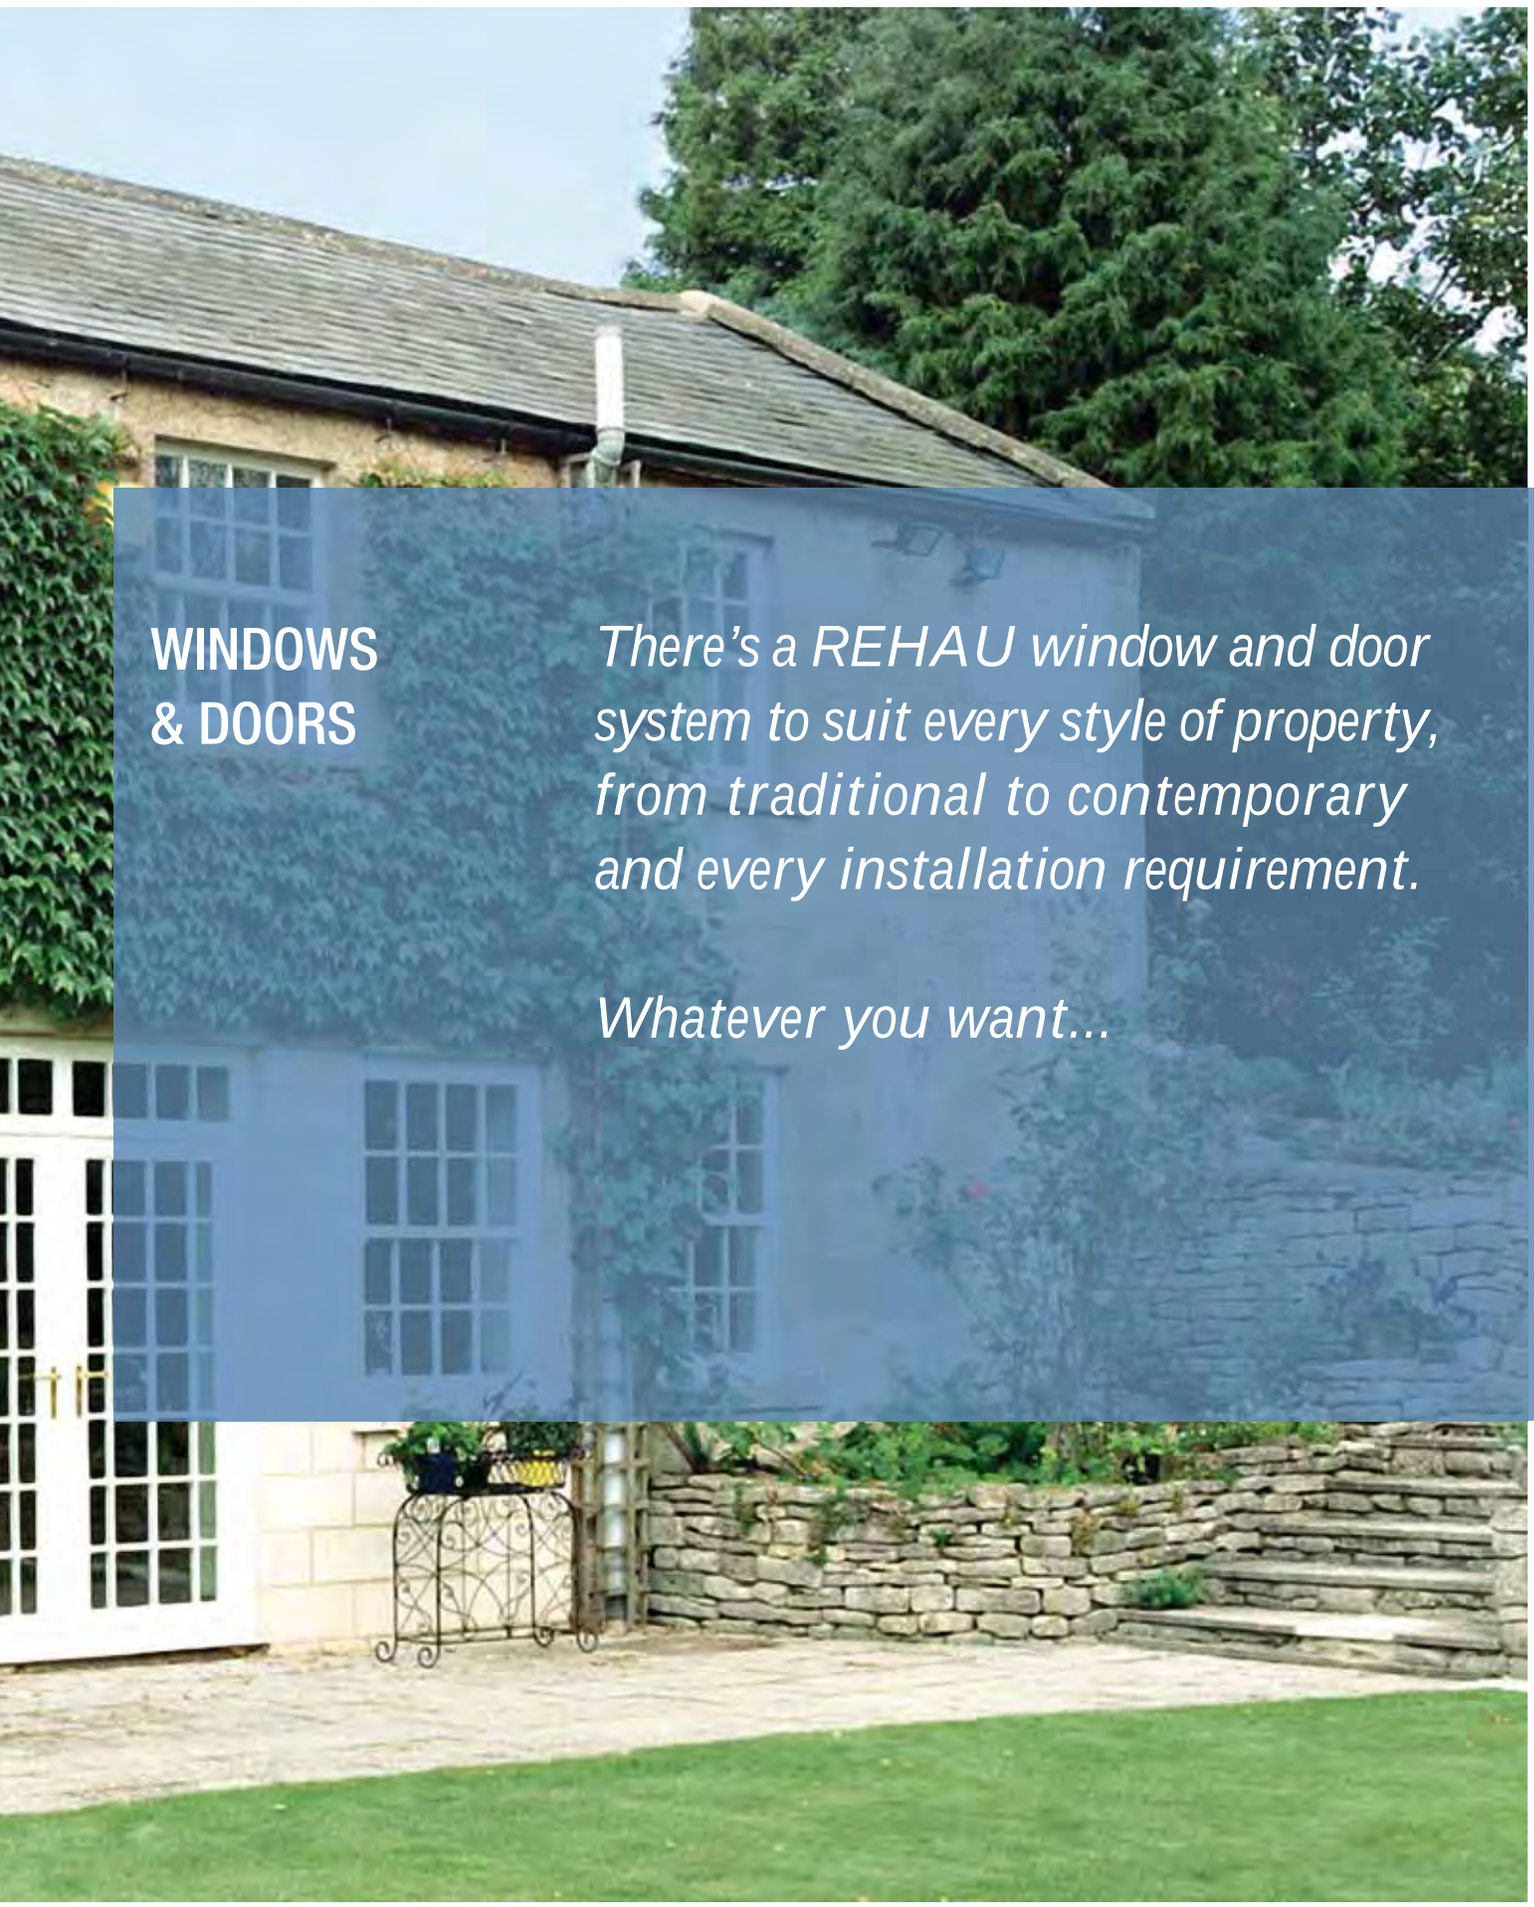
Time to feel the difference

We know changing the fabric of your house is a big decision. But we guarantee it is one you won't regret with REHAU's unbeatable selection of replacement windows, doors and conservatories.

Advances in the development of uPVC, along with REHAU's cutting edge technology and attention to detail means there has never been a better time to experience the feeling REHAU products will bring to your home.

This brochure shows how you can make the most of your home using REHAU's established quality. It explains the benefits of modern uPVC, including how to maximise energy efficiency and save money.

Time to explore.



WINDOWS & DOORS

There's a REHAU window and door system to suit every style of property, from traditional to contemporary and every installation requirement.

Whatever you want...

Window and door systems that work for you and your home.

The choice is yours

There are casement windows, windows that tilt and turn, or heritage vertical sliding sash windows. Doors come in all shapes, sizes and styles: composite doors, French doors, stable doors, patio doors, multi-fold doors; and of course there are conservatories and porches.

The quality of the uPVC means they'll look like new for years.

Every colour shines

You can get REHAU's window and door systems in white or in any one of 150 RAL colours using our Acryl II system, or more than 30 different woodgrain finishes. The most popular, standard coloured options are foiled woodgrains in Rosewood, Mahogany or Golden Oak. You can have these colours applied to the whole window or just to the inside or the outside on a white base.

The quality of REHAU uPVC means all of the windows and doors have a smooth gloss finish. They'll never warp, rot or need regular painting. All you'll need to do to keep them looking great is give them an occasional wipe with warm, soapy water. They'll look like new for years.

Enduring quality across the full spectrum.

If ever there was a time to choose uPVC it's now.

Replace, regenerate

Over forty years of uPVC window technology has produced a new generation of beautiful designs and enduring quality. There's a whole array of styles, colours and designs out there to suit every house.

Not only that, REHAU's highly durable uPVC window and door systems combine outstanding standards in energy efficiency and performance. You're no longer restricted by a lack of variety. There's no compromise.

The best of both worlds.

Choosing replacement windows or doors in uPVC helps to make a home more energy efficient and reduces heating costs.

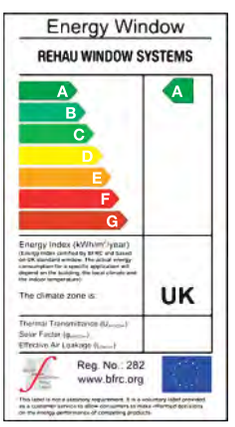
Saving energy, cutting costs

Windows can now be assessed with an A-G Energy rating, similar to that used on household applicances like fridges, dishwashers and washing machines.

Windows manufactured from REHAU systems can proudly display the Energy Saving Recommended logo because they meet the highest A-C ratings (further information is available at www.bfrc.org). REHAU's uPVC windows, when installed with the appropriate glazing unit, also comply with the latest building regulations and score highly on the energy assessment needed should you wish to sell your home.

REHAU's commitment goes beyond just producing energy efficient windows in the most environmentally friendly way possible.

They are also one of the leading manufacturers of renewable energy-systems and their product range includes ground to air heat exchangers, ground source energy probes and rainwater conservation tanks supplied to both domestic and commercial sectors.



Not only can you see the difference, you can hear it too.

Keeping the peace

Just imagine. Windows and doors that help you listen to what you want to; especially if all you want is peace and quiet.

One of the most immediate benefits of choosing uPVC replacement windows and doors is the peace and quiet that they bring.

All REHAU window and door systems can radically reduce outdoor noise levels, by having double glazed sealed units and low air transmittance that can bring down the noise levels in your home by as much as a half.

Keep outside noise out.

You can be sure of feeling well protected with REHAU's uPVC windows and door systems.

Safe and sound

Security for you and your home is paramount with REHAU. Their window and door systems are made from only the highest quality uPVC and designed to provide rigidity and strength, and to allow the highest performance locking mechanisms to be fitted.

REHAU's window and door systems all comply with BS7950 and PAS 23/24 standards governing security and are able to achieve Secured by Design certification. They are also approved by the London Housing Consortium and by Birmingham City Laboratories – two of the most exacting public sector specification authorities.

Some of the many reasons REHAU means quality.

Setting standards

As well as meeting Energy Saving standards, REHAU's main UK systems have been tested in accordance with, and meet the highest requirements of BS 7412 for the standard of a manufactured window, including BS 6375 for weather performance.

They are kitemarked to BS EN12608 for extrusion standards (Licence No.13358), which incorporates BS EN ISO 9001 for company procedures. And of course they comply with the necessary building regulations.

Because quality counts.

CONSERVATORIES

Whatever style, size, design and finish you choose, REHAU conservatories bring new life and energy to any home.

You can breathe fresh life into your home with a conservatory.

Bringing the outside inside

A conservatory gives you room to relax, room to dine and room to work or play. You get the appeal of being outdoors with the comfort and convenience of being inside – all year round.

A perfect way to give you space, to add a new dimension to your life and to your home.

They're designed by professionals and built by local craftsmen, expertly constructed to your personal requirements using only the finest REHAU window and door systems.

Not only will your conservatory stay looking good for years to come, but they're guaranteed to match your needs perfectly.

Extending possibilities.

Whatever your space, there's a huge variety of conservatory styles on offer.

Space for everyone

Whatever your space – country cottage, period property, barn conversion or bungalow, large or small – there's a huge variety of conservatory styles on offer to suit every home, every taste and every pocket. Traditional Victorian, Edwardian or contemporary in style – your conservatory can be tailored to your individual needs, creating your own ideal space.

Whatever style, size, design and finish you choose, REHAU conservatories bring new life and energy to any home. With their exceptional build quality and high performance products, life will never be the same again.

REHAU fabricators and installers have a reputation for a thoroughly professional approach and pride themselves on the friendly and knowledgeable guidance they are able to offer at every stage of design and installation.

The service is complete, right through from helping you plan and choose the conservatory that best matches your needs and property, to the attention to details like planning permission and building regulations. Nothing is left to chance.

Welcome to another world.

Whether it is construction, the latest automotive technology or in industry, the REHAU brand stands for unbeatable performance and technical excellence.

Recommendations don't get much better.

REHAU are the largest producer of uPVC window and door systems in the UK.

The best-kept secret

Founded in Germany in 1948, REHAU entered the UK in 1962 and is a truly global company established in 170 countries, with more than 15,000 employees.

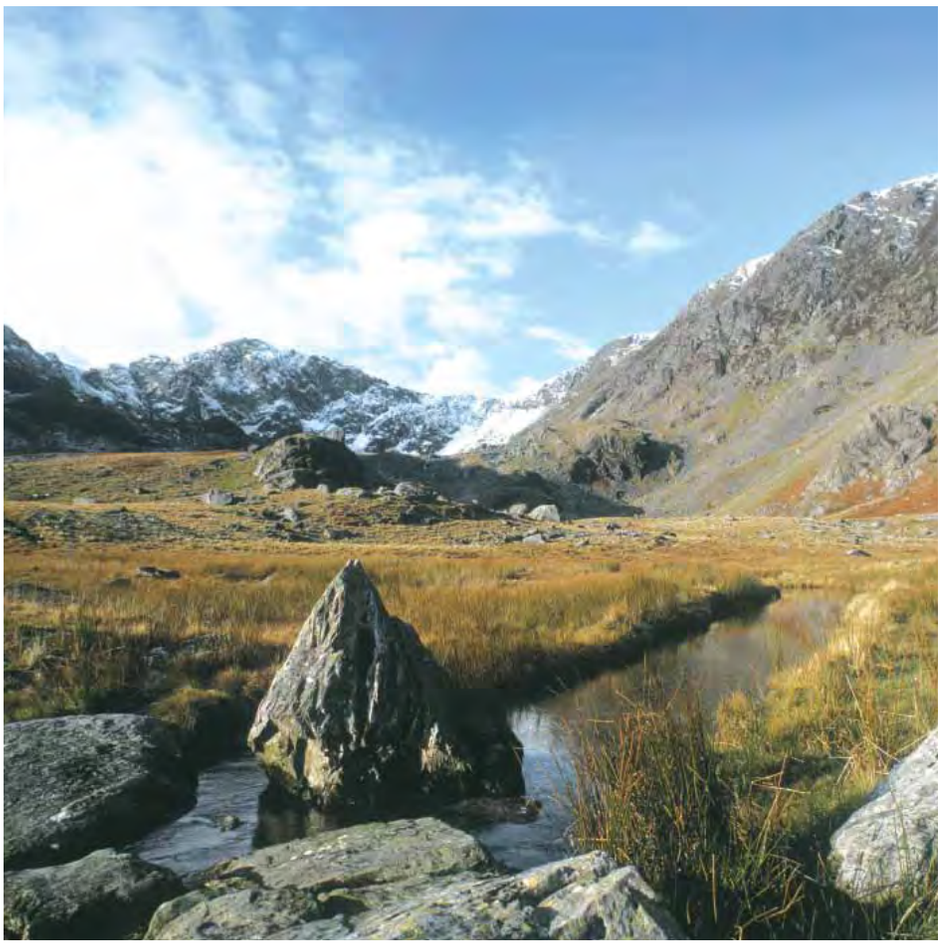
They combine cutting edge technology and style, that has established them as market leaders with expertise and experience on a local level that means their products are second to none.

REHAU were one of the first companies to produce and sell uPVC window systems in the UK.

REHAU window and door systems are supplied through a network of selected independent fabricators and installers, ensuring that you get the services of a local company backed by the resources of a global organisation.

There has never been a better time to experience the massive range of subtle and seductive styles on offer.

A reputation built to last.



REHAU are commited to minimising their impact on the environment.

Green and clean

REHAU's green credentials speak for themselves. For years they have championed environmentally friendly products and production processes. For REHAU, commitment to lowering their carbon footprint is a clear and constant goal. Every effort is made to continually re-assess how their impact on the environment can be minimised. For example 80% of all manufacturing off-cuts are recycled into new profiles.

- REHAU hold the British Standards certification BS EN 14001 for environmental standards.
- REHAU windows are rated A by the British Research Establishment Green Guide for Recyclability (www.bre.co.uk).

By choosing REHAU you can be rest assured that you are choosing an environmentally friendly solution.
